Dear Holly:

I can clear any date and any time the week of January 6th.

Pete

Thanks Pete. I will set up a call to discuss mercury and selenium. I'll try to combine them.

Can you please let me know what days and times will not work for you the week of Jan 6 and the week of Jan 13?

Thanks and Happy New Year!

Holly

Subject: Mercury and Selenium

Dear Holly:

Hope you survived Christmas. I was wondering if you could round up the expert and we could have a call on Mercury and Selenium. Most of my hardest racks to break when dealing with the standards are the result of bad choices so I would like to minimize that process.

We have HH criteria for Mercury which I believe should address any issues associated with updating our aquatic life criteria but want to make sure.

Pete
